good deal of pleasure. to seem like magic, and yet it simply is an illustration of a well-known principle of natural philosophy. All you need to make the experiment is a marble too. as may be found in any parlor or sitting room, a glass tumbler, and a piece of candle.

You first put under the two legs at one end of the table thin wedges of wood or paper to give the table a very slight incline in the direction of the other end. If you wish to make the feat all the more

mysterious, you should put the wedge the less when the company is not

moisten the rim carefully, so that the water will stick to it, or at least enough of it to make a thin coating of moisture. Place the tumbler, rim down, on the end of the table where the wedges are, and it will not move, for the incline, it you have not made the wedges too thick, will not be great enough to make the tumbler move by

But you are going to make the tumbler move of itself, so that it will seem to do so by magical power. To do this light the live of candle and hold it near the tumbler

The heat the candle will cause the air in the tumbler to expand, and this expansion will have the effect of raising the tumbler just a little from the smooth marble. The air cannot escape, however, because the water around the rim of the tumbler leaves.

keeps it in.

Then the tumbler will begin to move
the marble top, for the slight slowly along the marble top, for the slight elevation that the expanded air has given it makes it now rest on a thin layer of moist-ure, and it g ides down the incline by the force of gravity.

WHY DON'TWOMEN WEAR CAPS? attention anywhere. THE AMERICAN GIRL'S VOICE.

ONE THING HER ADMIRERS DO tired in the height of fashion. She had a NOT PRAISE IN HER.

> inpleasant Tones in It, Heard Above All in Summer Training That Would there come its Beicets Things to Rememher & School for Voice Cutthatles

The budation which has been so (reely given to the American girl in recent year has not included praise of her voice. Her beauty, dress, manner, vivacity, style and wit have all come in for praise, but there is yet to be heard in the chorus even a small note dwelling on the music of her soice. Modern writers abroad have avoided he ludierous error made by so many of heir predecessors in attributing to all Amercan women a fundaces for the use of slang spoken through the nose. Only a very ew women from certain parts of the East alk with the nasal twang, but as ogrtain other localities stamp their natives with the burr, rather pleasant in remember with the high pitched typical New York voice Whether it is because American women

have proved so successful in social life abroad or not, it is difficult to say, but of ferring from one car to the other, it was late the shrill American stace has been extens that a gathering of the brosses resembles vocally the group around a Broadway soda fountain after the matince. At no time of the year is the bad voice of the American woman more in evidence

than in summer, when travel and the openair life of the resorts give aggressive opportunities to its clarion note. It sounds from hotel and cottage plazza, on the links and the courts, on driveway and beach from June until September In the open air it seems at its very worst

until you bear it resounding in a Pullman car or a hotel office and it makes you wince.

The pitch of the American woman's

until you hear it resonation in a Pullman car or a hotel office and it makes you wines. You listen for the vices of the children, but you find no relief. The same squealing, becase effect is in evidence, only more poignant in its youthfulness.

This would seem to indicate that the American girl is born with this defect, but this is not the case. The shrift voice of the American child is largely the result of imitation and environment. Just as a few years ago a child who pronounced "dog." it was laughed at, so to-day a deep-voiced child would be made fun of.

To-day in the schools "dawg." "dawl." "cawffin," "cowffie," "cowffie," "cowffie," "and that the American proministion, but the shrift voice still obtains. The fact that the American voice responds immediately to cultivation is best proved by the nice voices of some of the leading actresses.

The women of Russia, Italy, Ireland, England, all have better voices than the women of American, so it cannot be urged that our climate is responsible for the trouble, for each of the conting and period of the proportion of the resolution of the resolution is best proved by the nice voices of some of the leading actresses.

EXPERIENCE OF ONE WRO BECAME A DEPARTMENT CLERK.

The Civil Service Examination—Discouraging Prospects of Appointment
—Washington's Lazy influence—Good
Resolutions—Not Carried—Out.

A woman who has not prepared herself for any profession and suddenly finds herself face to face with the necessity of carning a living is apit to turn first to the Government service. To enter this, she reasons, her good common school education will enable her to pass the required civil service examination, and courage and perseverance will accomplish the rest.

Accordingly, she prepares to take this examination There is a book called "Manual of Examinations for the Classified Civil Service of the United States," which may be procured from the Civil Service Commission at Washington. It contains all the information necessary for preparation for the examination, explains how to apply for it, gives the chances of appoints.
